Professional Summary

Proactive and detail-oriented Front-End Developer specializing in creating compelling user experiences through responsive and dynamic web and mobile applications. Skilled in leveraging modern JavaScript frameworks like React, Next.js, and Angular to deliver visually appealing and high-performing interfaces. Demonstrated success in collaborating with cross-functional teams to build scalable solutions, optimize UI components, and implement robust frontend architecture.

Technical Skills:

- **Frontend Technologies**

  HTML5, CSS3, Bootstrap, Tailwind, JavaScript, React/Redux, Nextjs, AngularJs, TypeScript, Responsive UI Design, React Native.

- **Backend and Database**

  Supabase, Firebase, MongoDB, MySQL.

- **Tools**

  Git, VS Code, Postman, Cursor

Professional Experience

Frontend/Mobile App Developer January 2025 Softlyft Technologies

Achievements

- Spearheaded the development of mobile and web-based applications, translating UI/UX designs into responsive, interactive, and cross-browser-compatible interfaces.
- Delivered training sessions for interns, fostering a culture of technical excellence and best

practices in frontend development.

- Implemented reusable component libraries using React/Redux and Next.js to streamline development processes and reduce project turnaround time.
- Contributed to the design and deployment of agriculture-focused applications, enhancing user interaction and overall user experience.

Frontend Developer May 2024 - November 2024 TechBeaver

Achievements

- Developed visually engaging and dynamic user interfaces for health solution applications, optimizing for performance and usability.
- Collaborated with designers to translate wireframes into high-quality, pixel-perfect code using React/Redux and Angular.
- Integrated frontend components with backend APIs, ensuring seamless data flow and dynamic content rendering.

Frontend Developer Intern November 2020 – 2023 Softlyft Technologies

Achievements

- Assisted in building responsive user interfaces using JavaScript, HTML5, and CSS3.
- Debugged and optimized application components for enhanced cross-browser compatibility.
- Worked on converting UI/UX wireframes into clean, maintainable, and reusable code structures.
- Optimizing components to work seamlessly across different browsers and devices
- Produce multiple visual element of web applications by translating UI/UX design wireframes into code, producing high quality markup using HTML5 and CSS3

Languages/Tools

HTML, CSS3, JavaScript, Material UI, VS code

Software QA Tester Intern 2018 – 2019 Netows Solution Lagos Nigeria

Achievements

- Develop, execute, and interpret load, stress, and other automated performance tests

- Create, write and execute detailed, comprehensive and well structured test cases for client's product

- Uses standard test methodology to execute test plans including system, regression, performance and stress testing for new products and product enhancement

- Worked in an AGILE environment and and also on the JIRA tracking tool

- Develop, execute, troubleshoot, and maintain automated functional test scripts when necessary
